**Subject:** Request for PolyMet meeting with Water director

Chris,

On today's monthly call with Congressman Nolan's office regarding the proposed NorthMet Mine project, Brad Moore, VP of PolyMet Company, indicated that he and others from the company wanted to meet with you as the new Water Director to discuss water permitting issues for the mine. I expect Brad will call me yet this week with some proposed dates. The Corps asked to participate in the conversation, as it will cover 404 as well as NPDES. MPCA (Rebecca Flood and Ann Foss) were on the call today, but did not indicate whether they wanted to be a part of the meeting, though they have attended other meetings between EPA and the company.

I will let you know as soon as Brad calls with possible dates.  
Ken Westlake
